MA 27 – 30/05

Vienna, 23 March 2005

INTERREG IIIB CADSES
Neighbourhood Programme

INTERREG IIIB CADSES Neighbourhood Programme

ANNUAL CONFERENCE

Vienna, 25th-26th April 2005

The City of Vienna, Municipal Department for EU-Strategy and Economic Development, within the framework of the Work programme of the Transnational CADSES Contact Point and based on the decision of the Monitoring Committee of the CADSES Programme, hereby invites you to attend the first ANNUAL CONFERENCE of the INTERREG IIIB CADSES Neighbourhood Programme.

The Annual Conference will be held on 25th-26th April 2005 in the City Hall of Vienna.

The Community Initiative Programme CADSES (Central, Adriatic, Danubian and South-Eastern European Space) aims at achieving higher territorial and economic integration within the co-operating area, promoting more balanced and harmonious development of the European space.

2005 is an important year for the CADSES Neighbourhood Programme. At the middle of the programming period - with 72 projects approved and further projects in the pipeline within the 3rd call for projects - it is time to look at the achievements of the Programme and have a look into the future. That is why the CADSES Neighbourhood Programme is organising its first Annual Conference.

The Conference will give the participants the opportunity to learn more about the first results of the approved projects, sharing experiences about transnational cooperation among institutions and partners working on territorial issues at European, national, regional and local level across the CADSES area.

Municipal Department
for EU-Strategy and
Economic Development

The main aims of the conference are

- to make the first results visible
- to promote joint learning of the Programme actors
- to offer a meeting place for new project partnerships
- to work on ideas for the next Programme period.

The topics of the conference will be the following:

- a) General experiences with first results of the programme
- b) Estimation of effects of first results of the programme and its projects belonging to the four priorities
- c) Generate new project ideas and create new project partnerships
- d) Work on ideas for the programming of the next period.

You will find more detailed information about the event (agenda, practical information, registration form) enclosed as well as online at www.cadses.net

You can register for this event also online at www.cadses.net.

Registration deadline is April 15th 2005.

With best regards,

Dipl. Ing. Walther Stöckl
